

POSITION ANNOUNCEMENT IN THE MATHEMATICAL SCIENCES

Proof School invites applications for an internship position beginning in July 2018. Proof School is an independent school in San Francisco that provides a liberal arts education for students in grades six to twelve who love math.

555 Post St, San Francisco
www.proofschool.org
work@proofschool.org

Interns at Proof School have the opportunity to work with some of the most mathematically talented and motivated students in the San Francisco Bay Area within the setting of a small school community. The internship position involves a combination of assisting math faculty in the classroom, overseeing independent study students, using open time to pursue their own mathematical studies, and developing and leading lessons. Compensation for a 2018-19 Proof School internship is set at \$40,038. Individuals must hold a college degree by the time of employment and be 25 years old or younger to be eligible for an internship. The duration of an internship ordinarily lasts for one year, with an option to extend the internship by one additional year as appropriate.

To apply for an internship position at Proof School, follow these steps.

1. Send an email message to work@proofschool.org indicating your interest in the position. This message should explain why you anticipate that it would be rewarding to work with middle and high school students, why you enjoy mathematics as a subject, and what directions you feel that your career might take and how an internship at Proof School would support them.
2. Attach a CV listing educational background, degrees earned or expected, any teaching experience gained, other relevant experience with middle or high school students, names and contact info of two references we may speak with, and any further information desired.

Completed applications will be acknowledged via an email. Proof School will review applications as they are received and continue until the position is filled; we anticipate meeting candidates at least through the end of May 2018. Candidates are welcome to contact Proof School to determine whether the position is still open or if their plans for employment change after they have submitted an application.

Proof School is an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, marital status, national origin, age, mental or physical disability, military or veteran status, or any other characteristic protected by law. Women and minorities are especially encouraged to apply.
